DETAILED ACTION

This office action is in response to amendment after final filed 3/3/2006.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In regard to claim 5, line 3, change xdtransistor to transistor.

Allowable Subject Matter

Claims 1, 4-8, and 10-12 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 1, 4-8, and 10-12 are neither anticipated nor made obvious by the prior art of record.

In regard to claims 1 and 4-7, the prior art fails to disclose a peak detector having an amplifying terminal to reduce offset, a transistor that functions as a diode when a positive signal is received, wherein the transistor is a heterojunction bipolar transistor; a peak hold capacitor for charging a peak value and maintaining a peak level when the transistor receives the positive signal; a signal amplitude detector to monitor the received signal amplitude and generates a control signal corresponding to the signal amplitude; and a current source to drive a current responsive to an output signal amplitude detector.

In regard to claims 8 and 10-12, the prior art fails to disclose a bottom detector having an amplifying terminal to reduce offset, a diode that is turned on when a negative signal is received; a peak hold capacitor for charging a bottom value and maintaining a bottom level when the diode is turned on; a signal amplitude detector to monitor the received signal amplitude and generates a control signal corresponding to the signal amplitude; and a current source connected in parallel to drive a current responsive to an output signal amplitude detector.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

Applicant's arguments, see pages 1 and 2, filed 3/3/2006, with respect to claims 1, 4-8, and 10-12 have been fully considered and are persuasive.
